

### **Bring you own device- Device purchase**

As you know, it is part of our Experiential Curriculum that students from Year 5 onwards bring their own devices with the "Bring Your Own Device" project. In this project students will have the opportunity to bring their own devices (tablet or laptop) into the classroom, where they will work on activities and develop projects using technology.

To facilitate the purchase, we have reached an agreement with the company Rossellimac in which you can buy one of these devices (MacBooks or iPads) at a reduced price.

These devices would already include the MDM (Mobile Device Management) application which is designed to manage mobiles, tablets and other mobile devices for the most effective protection of our students. We would like to remind you that all Apple and non Apple devices need to have this application installed, starting from the 24/25 school year.

Below you can find the links to the online stores where you can purchase the items. We kindly remind you that the price reduction is compared to the same devices in an Apple store.

-Online store for Easypack para iPad: <https://tienda.rossellimac.es/es/inicio/2423-ep24cit.html>

-Online store for Mac (CON Seguro AppleCare+): <https://tienda.rossellimac.es/es/inicio/2422-epmcitac.html>

-Online store for Mac (SIN Seguro AppleCare+): <https://tienda.rossellimac.es/es/inicio/2421-epmcit.html>
